## Cybersecurity—Cybercrime Threats and Risks to Healthcare

Presented by Robert E. Anderson, Jr., Navigant

**August 31, 2017 | 12pm to 1pm EST**

### THIS 1-HOUR WEBINAR PRESENTATION WILL DISCUSS:

Every health system and physician practice is at risk for criminal activities carried out by means of computers or the Internet, or “cybercrime.” The benefits and greater connectivity provided by Internet-enabled medical devices and databases for clinical, financial and administrative operations has, increased every healthcare provider’s exposure to cybersecurity threats. An adaptable plan on how to prepare, manage and address threats is the best approach.

The following will be covered:

- Current risks associated with cybersecurity
- Best practices to safeguard PPI and other confidential data
- Recommendations on sharing responsibility beyond risk management and IT staff
- Importance of internal education/training across the organization

### ABOUT THE SPEAKER:

Robert Anderson is a managing director in the global legal technology solutions practice and information security segment lead at Navigant. Bob collaborates with clients to tackle critical security issues to safeguard against adversity and ensure that risks are managed rigorously. As a former national security executive with the FBI, his expertise in industry-leading cybersecurity threats and incident response strategies helps clients manage and protect their businesses.
