Attack Claims and Denials to Drive Value A Strategy

Presented by Brian Graves, Connance

February 1st 2018 | 12pm to 1pm EST

THIS 1-HOUR WEBINAR PRESENTATION WILL DISCUSS: Innovative Approaches to Claims & Denial Management

High denial rates can have a detrimental impact on the bottom line. At best, denials force the business office to review and rework claims, causing a delay in AR receivables. At worst, the claim is rejected and must be written off, when in some cases, the denial is avoidable. How do you know which denials to work?

- Which denials should get your attention first?
- From root cause analysis, prioritization of denials for value and automation for claims statusing, leading organizations are going beyond the traditional approaches to handling claims and denials.

Learn more about how your organization can think differently to improve claims and denial management.
